## SUMMARY

AI Marketing Automation Specialist with 2+ years building n8n and LLM systems that turn content into reach and affiliate revenue. I deploy and operate content networks of **500+ channels** across Amazon niches, backed by a solid foundation in **Meta Business Suite and fanpage asset management**. I also build **marketing websites end-to-end that pull data from Amazon, social and AI APIs**. Experienced in leading AI automation teams and delivering workflows that significantly improve marketing productivity.

## CORE EXPERTISE

- **Multi-Channel Content Systems at Scale (500+ channels):** Deploy and operate content networks on Facebook, TikTok and YouTube by Amazon niche: Home & Kitchen, Beauty & Personal Care, Baby Products, Pet Supplies, Toys & Games and more, automated end-to-end from content sourcing to scheduled publishing.
- **Marketing Websites & API Integration:** Build marketing websites end-to-end (frontend, backend, database, deployment) that convert social traffic into clicks. Integrate Meta Graph API, TikTok / Facebook data via RapidAPI, Amazon product research (Helium 10), Apify scrapers and OpenAI / DeepSeek / Claude, with data backends on Google Apps Script webhooks, Google Sheets and PostgreSQL.
- **Meta Business Suite & Fanpage Asset Management:** Manage Business Manager assets at scale: fanpages, user roles and permissions, partner access, page access tokens. Structure portfolios by niche and market; keep pages healthy, policy-compliant and recoverable; run multi-asset operations with AdsPower and proxies.

## EXPERIENCE

**AVE Global** Aug 2024 – 2026

*AI Automation Specialist → Team Leader*

- Promoted from Meta BM asset operations to founding and leading the AI Automation Team, extending automation from Marketing to HR, Administration and Fulfillment.
- Built end-to-end AI and LLM workflows that significantly improved Marketing productivity.
- Managed Meta Business Manager assets for a network of 500+ channels and ran media production pipelines for niche products in international markets.
- Built AI chatbot agents for page networks on Smax and with n8n RAG (knowledge base + LLM) to answer customer questions automatically.
- Built internal web tools: a media-creation app, a CRM for automated page management, and automated performance-reporting dashboards.
- Standardized company-wide SOPs and built cross-department training and onboarding.

**Madison Technologies Vietnam JSC** Feb 2024 – May 2024

*Frontend Developer Intern*

- Built web interfaces and UI components in a Scrum/Agile team, breaking down tasks from design specs.
- Rated “Outstanding” at internship completion.

## SELECTED PROJECTS

- **Automated Reporting from Third-Party Platforms:** n8n and Apps Script workflows that pull performance data from Meta (Graph / Insights API) and Geniuslink into Google Sheets on a schedule, producing auto-updated reports and dashboards with no manual exports.
- **Shelfnotes (in development):** web platform (shelfnotes-39lx.vercel.app) that turns creators' short product videos into a shoppable shelf; each item carries the creator's own Amazon affiliate tag and an honest note on its drawbacks. Built on PostgreSQL (Neon).
- **Multi-Channel Content Automation:** n8n and LLM workflows that schedule and publish short-form video across Facebook, TikTok and Pinterest for niche pages.
- **Amazon Trend Tracker:** automated tracking of Amazon best-seller charts by niche (Google Sheets + Apps Script).

## EDUCATION

**University of Economics Ho Chi Minh City (UEH)** · *B.Sc. in Finance and Banking* · GPA 7.24/10 Sep 2017 – Dec 2021

**Iviettech Programmer Training Center, Da Nang** · *Front-End Development* · GPA 8.0/10 Oct 2022 – Mar 2023

**Certificate:** *AI Engineer Core Track: LLM Engineering, RAG, QLoRA, Agents* · Udemy (verify) 2025
